

AGREEMENT OF COPYRIGHT

To: Physics Essays Publication (PEP)

From: _____
Full and correct address of ALL authors is required

This Agreement covers the article submitted with the title _____
written by _____

The undersigned is the sole owner of the copyright relating to the article, OR is an authorized agent with the authority to assign the copyright on behalf of the copyright owner.

The Assignor hereby confirms that the written work referenced above (the "Work") is neither already published nor is currently submitted for publication elsewhere.

In consideration of the professional benefits relating to the publication of the Work, Assignor hereby assigns to PEP all right, title, and interest in and to the Work, world-wide, including copyright, the right to reproduce, distribute reproductions of, display, publicly perform, publish and adapt the Work, in all languages and all forms, whether individually or as part of a compilation, and including electronic rights of all kinds including storage, retrieval, databases, and all other forms of present or future electronic reproduction, such assignment to become effective upon acceptance of the Work for publication in PEP. In the event that the Work should be refused by PEP, the Assignor shall retain all right, title, and interest in and to the Work, worldwide.

Assignor further authorizes PEP to edit the Work as required to conform to PEP's standard style, or as required to make the Work compatible with publication of the Work in text, image, other electronic format, or such other formats or on such other medias as may now exist or hereafter be discovered.

Assignor warrants and represents that he or she has the full right to make this assignment, that the Work does not violate the rights of other persons nor infringes upon any existing copyrighted work. The Assignor further represents and warrants that the Work is free of plagiarism, and that the author has exercised reasonable care to ensure that it is accurate and does not contain anything that is libelous or obscene, or infringes on anyone's copyright, right of privacy, or other rights.

The Assignor may withdraw its submission of the Work at any time prior to acceptance for publication by PEP, but not after acceptance, as the copyright after acceptance is now transferred to and is owned by PEP. Moreover, the Assignor agrees that, once the Work is accepted for publication, and the copyright is transferred to PEP, the Work cannot be modified.

Assignor retains a right to republish or grant to third parties permission to republish all or part of the Work, only if written permission is obtained from PEP. Assignor agrees to include or require any third party to include a credit line as follows:

Reprinted by permission of Physics Essays Publication, from Physics Essays, "[citation information]".

Assignor retains a right to make (photo)copies of the Work for his own use as well as to use all or part of the Work in his future works for his own use, not for sale to others, but not until six months after PEP publishes the Work, as such use before the Work's publication by PEP could interfere with or injure the sale of Physics Essays.

Assignor understands that submission of the Work does not guarantee its publication, nor implies exemption from, discount of, or delay in payment of publication costs, if and when accepted for publication. Assignor also agrees not to ask the Editorial Office to represent the Work to third parties on behalf of its author(s).

This Assignment shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein. The Assignor hereby attorns to the jurisdiction of the courts of the Province of Ontario and the federal courts of Canada.
